## REPORT OF THE TRUSTEES.

CITY HOSPITAL, BOSTON, April 30, 1881.

*To the Honorable City Council:—*

The Trustees of the City Hospital, in compliance with the Ordinances, respectfully present herewith their Seventeenth Annual Report.

Number of patients remaining in the Hospital, April 30, 1880 . . . . .	289
Admitted during the year—	
Medical . . . . .	2,649
Surgical . . . . .	1,685
Ophthalmic . . . . .	84
	<hr/> 4,418
Treated during the year . . . . .	4,707
Discharged . . . . .	4,011
Died . . . . .	421
	<hr/> 4,432
Remaining in Hospital, April 30, 1880 . . . . .	275
Largest number in Hospital at any time . . . . .	365
Smallest number in Hospital at any time . . . . .	225
Daily average number of patients . . . . .	273 $\frac{1}{6}$
Average length of stay of each patient (days) . . . . .	22 $\frac{3}{5}$
Number of patients treated in the out-patient department, classified according to their diseases:—	
Medical diseases . . . . .	2,249
Surgical “ . . . . .	4,830
Diseases of the Eye . . . . .	1,597
“ “ Ear . . . . .	303
“ “ Skin . . . . .	735
“ of Women . . . . .	240
“ “ Nervous system . . . . .	274
“ “ the Throat . . . . .	377
Total . . . . .	<hr/> 10,605

Number of visits to the Hospital classified according to diseases :—

Medical diseases . . . . .	5,058
Surgical “ . . . . .	13,535
Diseases of the Eye . . . . .	11,005
“ “ Ear . . . . .	1,927
“ “ Skin . . . . .	1,701
“ of Women . . . . .	679
“ “ Nervous System . . . . .	1,179
“ “ the Throat . . . . .	1,135
Surgical out-patients treated at accident room, and not elsewhere included . . . . .	943
	<hr/>
	37,162

The report of the Superintendent and Resident Physician, presented herewith, contains, besides other information, a statement of the expenditures of the year, and is accompanied by the reports of the medical staff. These reports give in detail the number of patients treated in the Hospital, and the number treated in the out-patient department during the year, with classified statements of their diseases and the results of treatment.

The whole number of patients in the Hospital during the year was 4,707, and they were under treatment an average of 21.18 days each, making a total of 99,703 days, or 14,243 $\frac{2}{7}$  weeks. The entire cost of maintaining the Hospital during the year, including every expenditure, excepting the cost of additions and reconstruction of buildings, was at the rate of \$8.74 $\frac{1}{10}$  per week . . . . . \$125,039 35

But of the patients enumerated above,  
403 paid, for 1,176 $\frac{1}{7}$  weeks' board . . . . . 10,571 83

Leaving, therefore, the sum of . . . . . \$114,467 52

as the cost to the city of treating 4,304 non-paying patients, for a total of 13,067 $\frac{1}{7}$  weeks, which is at a rate of \$8.76 $\frac{1}{20}$  per week. But after deducting money received from pay-patients, stock on hand, etc., and averaging the *net cost* of maintaining the Hospital for the year among all the patients treated, we find the average cost to the city, of board for each patient, was \$7.97 $\frac{5}{8}$  per week.

The report of the Superintendent explains in detail the expenditures made during the year in maintaining the Hospital.

By his statements, and the above figures, and by a comparison with previous reports, it will be seen that during

the past year the largest number of patients in the Hospital at any one time was 37 more than last year; the smallest number at any one time was 2 more; the daily average was 1 more, and the average length of stay of each patient was  $2\frac{2}{10}$  days less; the net cost of maintaining the Hospital has been \$6,693.68 more than last year. This increase has been in a large measure due to the advance in the cost of nearly all articles of consumption.

While the increase in expenditure has been about 6 per cent., the increase in the number of weeks' board has been a small fraction of 1 per cent. In other words, the number of patients remaining the same, the expense of maintaining them has been increased.

During the year much has been done in renewing and adding to the stock of the wards and buildings, in order to complete the furnishing and increase the working stock in the Hospital. This expense could not well be deducted as being a part of the working materials of the house.

Considerable increase has been demanded and made in the salaries and wages, which have been very low.

Considerable expenditure has been made during the year in repairs and renovations of the Hospital buildings. The laundry building has been enlarged, a new drying-room added, and new fixtures and apparatus put in.

Ward K has had new bath-room and lavatory, and wards K and L have been repainted and whitened throughout. Quite extensive repairs have been made to the boilers and boiler-room drains. The corridor walls and ceilings and stairways of the new buildings, and many of the rooms, have been painted and whitened throughout, as have also the outpatient's department buildings and Lodge.

The Trustees of the City Hospital were organized under the act of incorporation May 1, 1880. It is to be hoped that time will show the wisdom of this change.

The Trustees are about to take measures to inaugurate a system for the collection of the expense to the city for the care of patients who have no legal settlement in Boston and rightfully belong to the charge of the State, or to other cities and towns, and who, at the time of their admission to the Hospital, are too sick to be removed to the places where they belong.

It is believed that much money will be saved to the city when this system is fully carried into effect, as it is estimated the city incurs an expense of at least ten thousand dollars annually, for the treatment and board of patients who, having no legal settlement anywhere, are properly chargeable to other cities, towns, or the State.

Attention is called to the recommendations of the Superintendent in his report where he again urges the building of a Home for Nurses. Since the establishment of the Training School for Nurses much benefit has resulted both to the Hospital, whose service has been improved by greater skill and knowledge, and to the community at large, who have had the services of thoroughly trained nurses after they leave the service of the Hospital. The graduates of the school find quick employment, and command high wages as soon as they leave. The demand for skilled nurses is very much greater than the supply; hence the necessity of liberally advancing the interests of the school. The work performed by the nurses is very trying; they suffer much sickness from their constant attendance upon the sick.

The establishment of a home away from the Hospital wards, where they could find rest and recuperation when off duty, would greatly add to their health, happiness, and efficiency.

The Trustees believe that such a home should be at once established. The land recently placed in the hands of the Trustees by the city is well adapted as the site for such a building. At times during the year, as will be seen from this report, the number of patients approached very nearly to the full capacity of the Hospital. If the Nurse's Home is built the rooms now occupied by them could be used for the patients, and thus postpone the time when increased accommodations for patients will be needed.

There has been but one change in the Hospital staff during the year. In November, last, Thomas Dwight, M.D., surgeon in the out-patient's department, resigned, and E. H. Bradford, M.D., was elected to fill the vacancy.

The thanks of the Trustees are due to the clergy, and others, for their continued kind attentions and gifts to the sick.

The Trustees recognize the great interest manifested by the Hospital staff in all that concerns the welfare of the Hospital, and they fully appreciate the value and extent of their services.

The Hospital has been well managed by the Superintendent, Dr. Rowe, and the Trustees gladly bear testimony that the year's work has been well performed by him and the officers associated with him.

Respectfully submitted,

The Board of Trustees,

G. W. POPE,

*President.*

# REPORT OF THE SUPERINTENDENT AND RESIDENT PHYSICIAN.

CITY HOSPITAL, April 30, 1881.

*To the Board of Trustees :—*

GENTLEMEN,—I have the honor to present herewith my Annual Report of the Hospital for the past year.

The following table shows the number of patients who have, each year, applied for admission, and been treated at the Hospital :—

	Patients examined for admission.	Patients admitted.	Patients accident- ally injured.	Number of out-pa- tients treated.
From June 1, 1864, to December 31, 1864 .....	703	475	129	371
From January 1, 1865, to December 31, 1865 ....	1,451	1,066	242	1,143
From January 1, 1866, to December 31, 1866 ....	1,749	1,432	345	3,324
From January 1, 1867, to December 31, 1867 ....	1,913	1,534	328	7,015
From January 1, 1868, to December 31, 1868 ....	2,729	2,078	417	8,794
From January 1, 1869, to April 30, 1870 .....	4,632	3,054	482	11,791
From May 1, 1870, to April 30, 1871 .....	3,977	2,396	525	8,899
From May 1, 1871, to April 30, 1872 .....	4,387	2,873	565	8,947
From May 1, 1872, to April 30, 1873 .....	4,326	3,304	660	7,526
From May 1, 1873, to April 30, 1874 .....	4,250	3,201	804	9,272
From May 1, 1874, to April 30, 1875 .....	4,652	3,424	756	8,732
From May 1, 1875, to April 30, 1876 .....	4,434	3,180	689	9,413
From May 1, 1876, to April 30, 1877 .....	4,713	3,580	663	8,526
From May 1, 1877, to April 30, 1878 .....	5,068	4,034	604	9,658
From May 1, 1878, to April 30, 1879 .....	5,285	4,323	734	10,419
From May 1, 1879, to April 30, 1880 .....	5,444	3,995	505	10,309
From May 1, 1880, to April 30, 1881 .....	5,781	4,418	553	10,605
Total.....	65,694	48,367	9,001	134,674

The number of patients classified according to their diseases, who visited the Hospital for advice and treatment in the out-patient department, was as follows :—

Medical diseases, under charge of Drs. Sumner and  
Shattuck . . . . . 2,249

Surgical diseases, under charge of Drs. Dwight and Bolles . . . . .	4,830
Diseases of the Eye, under charge of Drs. Williams and Wadsworth . . . . .	1,597
Diseases of the Ear, under charge of Dr. Green . . . . .	303
Diseases of the Skin, under charge of Dr. Wigglesworth . . . . .	735
Diseases of Women, under charge of Drs. Boardman and Chadwick . . . . .	240
Diseases of the Nervous System, under charge of Dr. Denny . . . . .	274
Diseases of the Throat, under charge of Dr. Cushing . . . . .	377
Total . . . . .	10,605

## NUMBER OF VISITS MADE BY OUT-PATIENTS TO THE HOSPITAL.

Net cost of maintaining Hospital from May 1, 1880, to April 30, 1881 .....	\$113,635 51

The foregoing statistics show that the total expenditure during the past year has been \$130,864 against \$120,185 for the previous year. This sum is reduced to \$125,039.35 by deducting from the total expenditure the cost of laundry extension and new apparatus, painting in the new buildings, and wards, alterations and additions, and the ambulance, which is not chargeable to cost of maintaining the Hospital.

This amount includes every expenditure, and gives a cost of \$8.74 per week for each patient.

If, also, we allow for the difference in stock at the beginning and close of the year, the income from paying patients and sale of old material, we have as a net cost to the city of running the Hospital \$113,635.51, or per capita for all the patients treated during the year \$7,97 $\frac{5}{6}$  per week.

This increase in cost was anticipated. The number of patients and the quantity of articles consumed remain about the same; but the prices of subsistence, medical and general supplies, have largely advanced. The amount paid for salaries and labor is also greater. The increase elsewhere has compelled us to allow a corresponding advance, or lose the benefit of skilled labor. The increase in cost can be accounted for in supplies and salaries alone. The income from paying patients has been \$10,571.83, — an increase of \$2,205.72 over last year.

The increase in the number of patients was 409 more than last year, while the increase in the number of weeks' board was only 18. This reduced the average stay from 23 $\frac{2}{10}$  to 22 $\frac{6}{10}$  days each.

The largest number of patients in the Hospital at any one time was 365 against 328 last year; the smallest number was 225, which is 2 more than last year.

The number of patients admitted with accidental injuries was 553, — an increase of 48 over the previous year. Of all patients admitted 117 died within 48 hours after admission, which is 11 less than last year. The rate of mortality was .089 against .093.

The increase in the number of patients treated is 409; but this number does not represent the relative amount of additional work necessitated. It has been apparent to every one familiar with the history of the Hospital during the past year that the cases have taxed the resources of the Hospital to a much greater extent than usual. The large number of severe injuries and acute medical diseases has at times taxed the working force to its utmost. This is the only Hospital in the city admitting contagious and infectious diseases. This fact has brought to us large numbers of this class, for which in number and severity the Hospital has never before been called upon

to provide. They demanded treatment which was expensive, laborious, and extremely exacting. The demand upon us for treatment of this class far exceeds our accommodations. If the Hospital continues to receive contagious diseases to the same extent as during the past year, it must speedily have larger and better accommodations.

During the year 1,363 applications were made for admission which were rejected. Only 59 appear on the tables as being denied for want of room. A large proportion of all who applied were suitable cases for treatment, but we were compelled to reject them for various reasons. They were, however, provided for as best they could be at the out-patient's department, at the Almshouse hospitals, or elsewhere.

The matter of admitting patients requires the greatest care and discrimination. The welfare of the applicant is the first consideration; but so many conditions are involved that at times it becomes impossible to justly admit cases, even when suitable, without detriment to those already under treatment.

The present accommodations (except in the summer months) are not equal to all the demands, and during the winter months are quite inadequate. The capacity should be such that at all times no case having the legal right, and needing care, should be denied.

The Training School for nurses continues to exercise its important part in the running of the Hospital, and during the past year more than previously has shown its good work in the improved method of caring for the sick. It has rendered the staff aid in utilizing various methods of treatment which could not have been carried out under untrained nurses. During the last few years considerable advance has been made in the general methods and details of the treatment of the average patient. Greater capabilities and resources in the nursing force have been used by more extended and exacting calls upon it. This, with the large amount of acute and urgent sickness, has made the year laborious and trying, and the force formerly considered adequate has been found insufficient. The number of nurses must be increased if the standard demanded by the staff is to be maintained.

During the past year 12 pupils have finished the required course and received diplomas.

There are now 6 head-nurses, graduates of our own school, 1 head-nurse, graduate of another school, 8 senior pupils acting head-nurses, 30 assistant nurses who are pupils, and 5 probationers, making a total of 50 who are now connected with the school. Since the date of the last report 30 have joined the school, 6 are still on probation, and 30 have left. Of the latter 12 were graduates; of these 4 have become

Superintendents or Assistant Superintendents of other training schools, 2 are in responsible positions in other hospitals, and 6 are engaged in private nursing:—11 assistant pupils have resigned, from lack of health or strength, or were dismissed as unsatisfactory in other respects:—1 was discharged for insubordination, 1 has died, and 5 have left from various other causes.

The pupils have received, during the year, bedside instructions from the head-nurses and house staff. There have been 158 class recitations by the Training School Superintendent, and 5 formal examinations by the Hospital staff.

The following lectures to the whole school have been given by members of the Hospital staff:—

1	by Dr. Curtis,	Nursing of sick children.
2	“ “ Doe,	Nursing in confinement.
2	“ “ Cheever,	After surgical operations.
2	“ “ Lyman,	Gynæcological nursing.
1	“ “ Sumner,	Nursing of sick children.
2	“ “ Draper,	Common-sense in the sick-room.
3	“ “ Edes,	Medical nursing.
5	“ “ Gay,	Surgical nursing.
2	“ “ Cutter,	Anatomy.
1	“ “ Mason,	Nursing in fevers.
4	“ “ Stedman,	Nursing in confinement.
1	“ “ Bolles,	Administering of medicine.
1	“ “ Green,	Diseases of the ear.

Making a total of 27 lectures during 8 months.

The subject of proper accommodations for the nurses was alluded to in the last two annual reports. Since then the Hospital staff has formally appealed to your Board that suitable and increased provisions should be made. The wants of the Hospital are various, but nothing is more urgent than a “Home for Nurses.”

The nurses now room in various parts of the Hospital buildings, and live day and night in an atmosphere adjacent to the sick. The duties of the faithful nurse are constant, exhausting, and result in both physical and mental “wear and tear.” By proper limitation of hours of labor, by exercise, fresh air, and good hygienic influences, the body and mind of the nurse can be kept healthful, cheerful, and always available for her arduous work. But the well-known expenditure of force which she is called upon to use cannot be reimbursed unless the conditions are favorable. Some of the nurses’ rooms are comfortable in themselves, but are far from fulfilling the requirements. This deficiency only can be supplied by

placing them in a building specially arranged and adapted for their daily life.

In a special communication sent to your Board, not long since, I explained in detail the need of this accommodation, its effect upon the nursing force, and its remedy. In giving increased and proper accommodations to the nurses, the rooms now occupied by them could be made available for patients, both free and paying. As an investment, both immediate and remote, it would redound to the credit of the Hospital, in the better care of the sick, in its good reputation, and would also in time pay for itself. I would, therefore, respectfully suggest to your Board the propriety of placing the matter before the City Council, with the formal request that a sufficient sum may be appropriated with which such a building can be constructed.

During the past year an extension much needed has been made to the laundry, giving ample room for work, with new and improved apparatus, thus enabling us to do more and better work. This expenditure has proved judicious, and one that reaches every patient and employé.

Much has been done in completing unfinished work about the various buildings. The new painting has brightened and improved the wards, rooms, and corridors. Various apartments have received the attention they have long needed, putting them in a condition to correspond with the work previously done.

The work of the Hospital year just ended has been great. It gives me pleasure to acknowledge the faithful assistance rendered me by the various officers, in securing the good results that may have been accomplished, and they are entitled to much commendation.

Miss A. C. Davis, as Matron and Superintendent of the Training School, has discharged the manifold and onerous duties of her office with fidelity and zeal.

Mr. Samuel M. Nesmith, as Steward, Mr. G. R. Tucker as Apothecary, and Dr. H. L. Burrill as Office Assistant, have performed satisfactorily their respective duties, proving themselves trustworthy and efficient.

It is gratifying to record an increased interest in the sick shown by the public in frequent gifts of flowers, fruit, books, pictures, and clothing.

I gratefully acknowledge the attentions of the clergy; the services of the ladies and gentlemen who sing to the patients on Sunday afternoons; the "Hospital Newspaper Society;" the "Flower Mission;" drives supplied by the Boston Young Men's Christian Union; the generous supplies of clothing from the "Jamaica Plain Employment Society;" and the continued

kindness of Mrs. Quincy A. Shaw in sending weekly choice flowers.

Special thanks are due the young ladies of Wellesley College, for a beautiful engraving of Correggio's "Holy Night," which they sent as a Christmas gift to the Children's Ward.

The hearty support and sympathy of the Surgeons and Physicians of the Hospital staff have been invaluable, and I acknowledge with gratitude my great and increasing obligations for their aid and counsel.

Thanking the Board of Trustees for their kindness and assistance,

I have the honor to be,

Your obedient servant,

G. H. M. ROWE,

*Resident Physician and Superintendent.*

## SURGICAL OPERATIONS.

OPERATIONS.	M.	F.	T.	REMARKS.
Abscesses incised .....	50	32	82	Well, 42; relieved, 35; died (Septicæmia), 1; in hospital, 4.
Amputations —				
Of tongue .....	2	....	2	Relieved, 2; operation for epithelioma.
Of fingers .....	30	7	37	Well 15; relieved, 19; in hospital, 3.
Of leg .....	7	2	9	Well 5; relieved, 2; died, 1 (of exhaustion); in hospital, 1.
Of both legs.....	3	....	3	Well, 2; relieved, 1.
Of foot .....	3	....	3	Relieved, 2; in hospital, 1.
Of toes.....	10	3	13	Well, 8; relieved, 4; died, 1 (fractured skull).
Of arm .....	4	2	6	Well, 3; in hospital, 1; died, 1 (shock), 1 (embolism).
Of both feet, Heys & Lisfranc ....	1	1	1	Died, 1 (exhaustion).
Aneurism, ligated .....	1	....	1	Relieved, 1.
excised.....	....	1	1	Well, 1.
Ankylosis of knee, Gross' operation .....	1	....	1	Well, 1.
Bronchocele, excised .....	....	1	1	Relieved, 1.
Bursa, incised.....	1	3	4	Well, 3; relieved, 1.
Bubo, incised .....	7	1	8	Well, 3; relieved, 4; in hospital, 1.
Carbuncle, incised.....	3	1	4	Well, 1; relieved, 1; died, 1 (Septicæmia); in hospital, 1.
Cellulitis, incised.....	15	6	21	Well, 6; relieved, 9; died, 2 (Pyæmia), 1 (Pneumonia); in hospital, 3.
Circumcision .....	9	....	9	Well, 5; relieved, 4.
Dislocation of shoulder reduced	2	2	4	Well, 2; relieved, 2.
Epulis, excised.....	....	2	2	Relieved, 2.
Erysipelas, incised .....	3	1	4	Well, 1; relieved, 2; died, 1 (Septicæmia).
Excisions —				
Of elbow.....	3	....	3	Well, 1; relieved, 1; died, 1 (exhaustion).
Of humerus .....	1	....	1	Relieved, 1.
Of lower jaw .....	....	1	1	Died, 1 (hemorrhage and shock).
Of leg .....	....	1	1	Relieved, 1.
Of metatarsus.....	1	....	1	Relieved, 1.
Extirpation of coccyx .....	1	....	1	Well, 1, operation for malignant growth.
Fistula in ano .....	18	4	22	Well, 10; relieved, 12.
Foreign bodies removed .....	1	1	2	Well, 2.
Gunshot wounds, ball removed	3	2	5	Well, 3; relieved, 2.
Carried forward .....	179	74	253	

SURGICAL OPERATIONS.—*Continued.*

OPERATIONS.	M.	F.	T.	REMARKS.
<i>Brought forward</i> .....	179	74	253	
Hæmatocele.....	1	....	1	Well, 1.
Hæmorrhoids, by ligation ....	11	3	14	Well, 4; relieved, 10.
by cautery ....	1	....	1	Relieved, 1.
Hallux Valgus, operation for..	1	....	1	Relieved, 1.
Hernia —				
Taxis .....	3	....	3	Relieved, 2; died, 1 (Peritonitis).
Herniotomy .....	2	2	4	Well, 2; died, 1 (Peritonitis); in hospital, 1.
Heaton's operation .....	5	1	6	Relieved, 6.
Hydrocele—				
Tapped .....	4	....	4	Well, 1; relieved, 3.
Injected.....	1	....	1	Relieved, 1.
Slit up .....	1	....	1	In hospital, 1.
Incision of mastoid cells....	....	1	1	Died, 1 (Pyæmia).
Ingrown toe-nail .....	5	6	11	Well, 6; relieved, 5.
Lithotomy .....	2	....	2	Well, 1; died, 1 (Erysipelas).
Lupus Erythematosus, excised ....	....	2	2	Relieved, 2.
Nævus .....	....	3	3	Well, 1; relieved, 2.
Necrosis, operation for.....	3	2	5	Relieved, 5.
Sequestrotomy .....	8	4	12	Well, 3; relieved, 8; in hospital, 1.
Naso-pharyngeal polypus ....	1	....	1	Relieved, 1.
Nasal polypus.....	1	....	1	Relieved, 1.
Ovariectomy .....	....	1	1	Well, 1.
Perineorrhaphy.....	....	5	5	Well, 4; died, 1 (Chronic Bright's).
Periostitis, incised.....	1	1	2	Well, 1; died, 1 (Pyæmia).
Phimosis, slit up .....	8	....	8	Well, 3; relieved, 4; died, 1 (Septicæmia).
Plastic operations—				
Of face for wound.....	1	....	1	Well, 1.
Cleft palate .....	1	....	1	Well, 1.
Hare lip.....	2	1	3	Well, 1; relieved, 1; died, 1 (Capillary Bronchitis).
Refraction of radius.....	1	....	1	Relieved, 1.
ulnar.....	....	1	1	Relieved, 1.
Retention of urine, Cock's operation .....	1	....	1	Died, 1 (Peritonitis).
Resection of nose .....	1	....	1	Well, 1.
<i>Carried forward</i> .....	245	107	352	

SURGICAL OPERATIONS. — *Continued.*

OPERATIONS.	M.	F.	T.	REMARKS.
<i>Brought forward</i> .....	245	107	352	
Sinus slit up .....	6	3	9	Relieved, 9.
Spina Bifida, radical cure by injection .....	1	....	1	Relieved, 1.
Sphincter ani, stretched .....	4	....	4	Well, 1; relieved 3.
Stricture of rectum —				
Dilated .....	1	2	3	Relieved, 3.
Colotomy .....	1	....	1	Died, 1 (shock).
Stricture of urethra —				
Dilated .....	4	....	4	Relieved, 4.
Divulsed .....	2	....	2	Relieved, 2.
Internal urethrotomy .....	3	....	3	Well, 2; relieved, 1.
External urethrotomy .....	1	....	1	Relieved, 1.
Otis operation .....	2	....	2	Relieved. 2.
Tenotomy —				
For cicatrices .....	1	....	1	Relieved, 1.
For dislocation .....	2	....	2	Relieved, 2.
For fracture .....	1	....	1	Relieved, 1.
For talipes .....	2	....	2	Relieved, 2.
Testis removed .....	1	....	1	Relieved, 1.
Tonsils excised .....	1	....	1	Well, 1.
Tracheotomy —				
For injury .....	1	1	2	Well, 1; died, 1 (fibrinous bronchitis from burn).
For croup .....	4	2	6	Well, 1; relieved, 1; died 4.
For diphtheria .....	7	6	13	Well, 2; relieved, 1; died, 10.
Trephining .....	1	....	1	Died, 1 (Comp. com. fracture skull).
Tumors, excised —				
Adenoma .....	....	1	1	Relieved, 1.
Carcinoma .....	1	9	10	Relieved, 7; died, 1 (Erysipelas), 2 (Pneumonia).
Condyloma .....	3	5	8	Well, 5; relieved, 3.
Epithelioma .....	14	3	17	Well, 5; relieved, 10; in hospital, 2.
Fibroma .....	1	2	3	Well, 3.
Neuroma .....	1	....	1	Relieved, 1.
Osteoma .....	....	1	1	In hospital, 1.
Sarcoma .....	....	1	1	Well, 1.
<i>Carried forward</i> .....	311	143	454	

SURGICAL OPERATIONS.— *Continued.*

OPERATIONS.	M.	F.	T.	REMARKS.
<i>Brought forward</i> .....	311	143	454	
Cystic, diseased .....	....	2	2	Relieved, 1; in hospital, 1.
Lipoma .....	....	2	2	Well, 1; relieved, 1.
Wens .....	1	2	3	Well, 1; relieved, 2.
Urethral caruncle, excised....	2	6	8	Well, 4; relieved, 4.
Varicocele, ligated .....	....	1	1	Relieved, 1.
Varicose veins .....	2	....	2	Relieved, 2.
Vagina—	1	1	2	Well, 2.
Vesico-vaginal fistula .....				
Double vagina, septum removed .....	....	1	1	Relieved, 1.
Totals .....	317	158	475

## BEQUESTS.

GOODNOW FUND. — ELISHA GOODNOW, of South Boston (Ward XII.), who died in the year 1851, and whose will is dated 12 July, 1849, bequeathed to the city "all the rest and residue of his estate, real and personal, not otherwise disposed of," for the purpose of establishing, in the Eleventh or Twelfth Wards of the city, a Hospital for the sick; one-half of said funds to be applied for the establishment and maintenance of free beds, which should always be at the disposal and under the control of the Officers of the Government of said Hospital for the time being. Under this will the city came into possession of certain real estate situated on Cross street, which has been disposed of and has produced the sum of \$16,500, which has been invested in City of Boston Six per cent. Stock. Also a lot of land on Third street, South Boston, containing 6,683 $\frac{1}{3}$  feet, which was disposed of in 1867 for \$4,623.25, of which \$4,000 has been invested in City of Boston Five per cent. Stock, and the balance (\$623.25) remained in the City Treasury at interest, until it amounted to \$1,000, and was invested in a City of Boston Six per cent. Currency Note. The \$10,000 deposited by the Executors of Mr. Goodnow, June 22, 1852, with the Massachusetts Hospital Life Insurance Company, the interest upon which is to be paid to the widow, will, upon her decease, be distributed as follows: —

\$500 to the Penitent Females' Refuge.

\$5,000 to City of Boston; income to be expended for the relief of sick and infirm persons.

\$4,500 to be added to the fund heretofore provided for the support of free beds in the City Hospital.

NICHOLS FUND. — LAWRENCE NICHOLS, who died in September, 1862, made the following bequest to the city: "I give to the City of Boston, towards the establishment and endowment of a City Hospital, in case such Hospital shall have been established at the time of my decease, the sum of one thousand dollars." And in case such Hospital should not have been established by the city at the time of his decease, he directed the same amount to be deposited with the Massachusetts Hospital Life Insurance Company, and suffered to accumulate, by the addition of interest, until such a Hospital should be established.

The executor of the will, Wm. Perkins, Esq., has paid into the treasury nine hundred and thirty-seven dollars and

twenty-five cents (\$937.25), being the amount devised, less the *Internal Revenue Tax* on the same, and \$530.50, as one of the "*residuary legatees in the United States*," from the surplus remaining undisposed of. The \$937.25, with the accumulated interest thereon, has been invested in a certificate of City Stock for \$1,000. The balance (\$530.50) remained at interest until it amounted to \$1,000, and was invested in a City of Boston Six per cent. Currency Note.

**NORCROSS FUND.**—1868, January 1. The Trustees received the sum of two thousand dollars from Hon. OTIS NORCROSS, as the foundation of a fund for the benefit of patients leaving the Hospital poor and destitute of proper clothing. The principal sum is invested in a City of Boston interest-bearing note, to be deposited with the City Auditor, the interest of which is to be collected annually or oftener, and paid over to the President of the Board of Trustees, for the time being, of the City Hospital, to be by him expended at his discretion for the benefit and temporary assistance of those patients who are in his judgment deserving, and who are destitute of proper clothing in which to leave the Hospital, and having no means of procuring it.

## RULES FOR ADMISSIONS AND DISCHARGES, Etc.

Applications for admission of patients shall be made to the Resident Physician at the Hospital, on each day of the week, Sunday excepted, between 9 and 11 A.M.

Whenever able, the patient shall apply in person. When not able to appear in person, application may be made by a friend, and the patient may be visited at his residence.

Any Trustee, or either of the physicians or surgeons in attendance, may, in case of emergency, send a patient in the first instance to the Hospital by written permit, and the Visiting Committee shall decide, as soon as may be afterwards, whether such patient shall remain.

Persons accidentally wounded, or otherwise disabled or injured, shall be received at all hours.

Permits for admission shall be subject to the approval of the Visiting Committee, and they shall have the power at any time to require the Resident Physician to report to them the names of applicants, before admitting them, and may dismiss any patients whom they think improperly admitted, or change the terms of admission.

Patients discharged on the recommendation of the physicians or surgeons shall be provided with a certificate stating their condition at the time of discharge, whether cured, relieved, or not relieved, which certificate shall be signed by the Superintendent and Resident Physician.

Whenever a patient is removed from the Hospital without the consent and approval of the Superintendent and Resident Physician, a written statement to that effect shall be required from any person assuming the responsibility of the removal.

The body of any person dying at the Hospital shall not be delivered without a written receipt from the parties taking the same.

In case of the decease of any patient, the Resident Physician shall sign a certificate to that effect, and shall furnish the City Registrar with a copy of the same. He shall also state the time and cause of death, the disposition made of the body, whether delivered to friends or buried from the Hospital. In the last case he shall mention the place of interment.

Patients may be admitted by the Trustees to the privileges

of the Hospital, at such rates of board as they may from time to time determine; such board being secured by their friends, or by the authorities of the place to which they belong.

In all cases where, in the opinion of the Trustees, the circumstances of the patient will warrant it, the whole or a part of the board shall be paid. If separate apartments or articles not usually furnished at the Hospital are provided, such payment shall be made therefor as the Trustees shall deem reasonable.

#### HOUSE RULES.

Patients must be in their proper places in the wards during the visit of the physicians and surgeons, and always by 8 P.M., unless specially exempted by the Superintendent.

Those free patients who are able are expected to assist in nursing, and in such other service as may be reasonably required of them.

Patients shall not leave the Hospital grounds without a pass from the Superintendent, nor their respective wards without the consent of the nurse in attendance.

No patient shall purchase, or cause any member of the household to purchase for him, any article of food whatsoever, nor any other article, without the consent of the Superintendent; nor shall any officer or servant of the Hospital receive a gift or fee from a patient.

Profane or obscene language, loud talking and incivility, are prohibited.

No patient having acute syphilitic disease or *mania-à-potu* shall be admitted as a charity patient, or at a lower rate than twenty-five dollars a week for the former, and fifteen dollars for the latter.

No person shall be admitted to the Hospital whose case is judged to be incurable, unless there be urgent symptoms, which, in the opinion of the physician or surgeon, are capable of being relieved.

Patients may be visited by clergymen of their own selection, and where there is a wish for the performance of any particular religious rite it shall be indulged, when practicable.

It is expected that patients will implicitly obey the rules of the Hospital. Complaints, for whatever cause, may be made to the Superintendent or Visiting Committee, and when reasonable shall be by them reported to the Trustees.

All employes must be in their respective places during their hours of duty. The doors and gates of the Hospital

will be closed at 10 P.M., at which time all are expected to be quiet, and those not on duty, in their own rooms.

The use of tobacco, wine, and intoxicating liquors is prohibited within the Hospital, unless prescribed by a physician.

#### VISITORS.

No person shall visit any part of the premises, except on business, or at such times as may be fixed for the reception of visitors, without the permission of the Superintendent, or some one of the Trustees.

On Monday, Tuesday, Thursday, and Saturday of each week, from two to three o'clock P.M., friends may be permitted to visit patients, though no patient shall receive more than one visitor on the same day. In all cases, however, the Trustees or Superintendent may exercise discretionary powers as to excluding or admitting visitors.

All visitors must leave when the bell rings at the expiration of the visiting hour.

No visitor will be permitted to take any meal in the Hospital, or pass the night therein, without permission from the Superintendent or one of the Trustees.

No visitor shall be allowed to give any article of food or drink to a patient, unless by permission of the nurse; and any article sent to the patient shall be left with the Superintendent.

## THE BOSTON CITY HOSPITAL TRAINING SCHOOL FOR NURSES.

---

The Trustees of the Boston City Hospital have made arrangements for giving a two years' course of training to women desirous of becoming professional nurses.

Those wishing to receive such a course of instruction must apply to the Superintendent of the City Hospital, Boston.

The most desirable age for candidates is from twenty-five to thirty-five years; they must be in sound health, and must present, on application, a certificate from two responsible persons (one a physician, preferred) as to their good character and good health. Upon the recommendation of the Superintendent of the Hospital, and the approval of the Trustees, they will be received for one month on probation. During this month they are boarded and lodged at the Hospital, but receive no compensation.

The Superintendent of Nurses has charge of the Training School, under the authority of the Superintendent of the Hospital and of the Board of Trustees, and the nurses are subject to the rules of the Hospital. Their fitness for the work, and the propriety of retaining or dismissing them at the end of the month of trial, is determined by the authorities in charge of the school, under the direction of the Trustees, and the same authorities can, in like manner, discharge them at any time, in case of misconduct or inefficiency. They reside in the Hospital, and serve as assistant nurses in its wards.

All nurses are required to be sober, honest, truthful, trustworthy, punctual, quiet, orderly, cleanly, neat, patient, kind, and cheerful.

### COURSE OF TRAINING.

Those fulfilling the conditions of the probationary month are accepted as pupils. They must sign a written agreement to remain at the school for two years, and to conform to the rules.

The instruction includes:—

1. The dressing of blisters, burns, sores, and wounds, and applying of fomentations, poultices, and minor dressings.

2. The applying of leeches, and subsequent treatment.
3. The administering of enemias.
4. The applying of friction to the body and extremities in the best method.
5. The managing of helpless patients in bed, in moving, changing clothing, giving baths, keeping patients warm or cool, preventing and dressing bed-sores, managing position, etc., and in feeding.
6. The making of bandages and rollers, etc., and bandaging.
7. The making of beds and changing sheets, etc., with patients in bed.

8. The cooking, preparing, and serving of food and delicacies for the sick.

They are also given some instruction in the best practical methods of supplying fresh air, warming and ventilating sick-rooms in a proper manner, and are taught to take proper care of rooms and wards; in keeping all utensils perfectly clean and disinfected, etc.; to observe the sick accurately in regard to the state of the secretions, expectorations, pulse, breathing, skin, temperature, eruptions, sleep, appetite, effect of diet or of stimulants and medicine; and the managing of convalescents.

The instruction is given mainly by the Superintendent of the Training School, and by the head nurses. Lectures, recitations, and demonstrations, also take place at stated periods. Examinations, chiefly upon practical points, will take place from time to time.

The pupils are employed as assistant nurses in the wards of the Hospital, and are paid ten dollars (\$10) per month during the first year, and fourteen dollars (\$14) per month during the second year, for their clothing and personal expenses. This sum is in no wise intended as wages, it being considered that their education during this time is a full equivalent for their services.

They are required to wear at all times, while on duty in the wards, dresses of material that can be washed, simply made, and such caps, cuffs, and aprons as may be prescribed.

When the full term of two years is completed, the nurses, thus trained, receive (after final examinations) diplomas certifying to the regular course of training, their knowledge of nursing, and their ability.

The right is reserved to terminate the connection of any nurse or pupil with the school for any reason which may be deemed sufficient.

A blank form will be furnished to applicants to be filled in with answers to the following questions in the candidate's own handwriting, and sent to the Superintendent of City Hospital, Boston, Mass.

QUESTIONS TO BE ANSWERED BY CANDIDATE.

1. Name in full, and present address of candidate.
2. Are you a single woman or widow?
3. Your present occupation or employment.
4. Age last birthday, and date and place of birth.
5. Height? Weight?
6. Where educated?
7. Are you strong and healthy? Have you always been so?
8. Are your sight and hearing perfect?
9. Have you any physical defects?
10. Have you any tendency to pulmonary complaint?
11. If a widow, have you children? How many? Their ages? How are they provided for?
12. Where (if any) was your last situation? How long were you in it?
13. The names in full and addresses of two persons to be referred to. State how long each has known you. If previously employed, one of these must be the last employer.

I declare the above statement to be correct.

Signed,

*Candidate.*

Date.

## AN ACT

TO INCORPORATE THE TRUSTEES OF THE CITY HOSPITAL  
OF THE CITY OF BOSTON.

*Be it enacted by the Senate and House of Representatives in  
General Court assembled, and by the authority of the  
same, as follows: —*

SECTION 1. The Trustees of the City Hospital of the City of Boston for the time being are hereby made a corporation by the name of the Trustees of the City Hospital of the City of Boston; and said Trustees and their successors in office shall continue a body corporate for the purposes hereinafter set forth, with all the powers and privileges, and subject to all the duties, restrictions, and liabilities in the general laws relating to such corporations.

SECT. 2. Said corporation shall have authority to take and hold real and personal estate to an amount not exceeding one million dollars, which may be given, granted, bequeathed, or devised to it, and accepted by the Trustees for the benefit of the City Hospital of the City of Boston, or any purpose connected therewith. Money received by it shall be invested by the Treasurer of the City of Boston, under the direction of the Finance Committee of said city; and all securities belonging to said corporation shall be placed in the custody of said Treasurer: *provided*, always, that both the principal and income thereof shall be appropriated according to the terms of the donation, devise, or bequest, under the direction of said corporation.

SECT. 3. The Trustees of the City Hospital shall be seven in number. In the month of April, in the year eighteen hundred and eighty, and annually thereafter in the month of January, the City Council shall elect, by concurrent vote of the two branches, one member of the Board of Aldermen and one member of the Common Council to be members of said Board of Trustees, to hold office during the remainder of the municipal year in which they are elected, and until others are elected in their places. And in the month of April, in the year eighteen hundred and eighty, the Mayor shall appoint, subject to the confirmation of the City Council, five citizens of Boston, not members of the City Council, to be members of the Board of Trustees of the City Hospital, one of whom shall hold office for five years, one for four years, one for three years, one for two years, and one for one year; and upon such election, and such appointment and confirmation, the terms of office of the Trustees of the City Hospital then holding office shall cease and determine.

And annually thereafter, in the month of April of each year, the Mayor shall appoint, subject to the confirmation of the City Council, one citizen at large as a Trustee of the City Hospital, to serve for a term of five years from the first Monday in May in the year in which he shall be appointed. The Trustees shall at all times be subject to removal from office for cause, by a vote of two-thirds of each branch of the City Council present and voting thereon. Whenever any vacancy shall occur in said Board of Trustees by death, resignation, or otherwise, said vacancy shall be filled by the election or appointment, in the manner aforesaid, of another Trustee, who shall hold office for the residue of the unexpired term. No member of said Board of Trustees shall receive any pecuniary compensation for his services.

SECT. 4. The members of said Board shall meet for organization annually on the first Monday of May, and choose one of their number as president. They shall have power to make such rules and regulations relating to said City Hospital and its officers and servants, and to fix and enforce penalties for the violation of such rules and regulations as they may deem expedient; *provided* that the same shall not be inconsistent with the provisions of this act, and shall be subject at all times to such limitations, restrictions, and amendments as the City Council may direct.

SECT. 5. The said Trustees shall, subject to the direction of the City Council, by ordinance or otherwise, have the general care and control of the City Hospital, and of all branches thereof, which have been or which may hereafter be established, together with the buildings and rooms containing the same, and the fixtures and furniture connected therewith, and also of the expenditures of the money appropriated therefor.

SECT. 6. The said Board of Trustees may appoint a Superintendent, with such assistants and subordinate officers as they may think necessary or expedient, and may remove the same, and fix their compensation; *provided* that the amount thus paid shall not exceed the sum appropriated by the City Council for that item of expense, and the income of any moneys which may lawfully be appropriated for the same purpose from funds or property held by said Trustees under the provisions of this act.

SECT. 7. The City Council shall have power to pass such ordinances, not inconsistent herewith or repugnant to other laws of the Commonwealth, as to the duties and authority of said Board, as they may from time to time deem expedient.

SECT. 8. This act shall take effect upon its passage.

Approved April 7, 1880.

## DONATIONS.

During the Hospital year 1880-81, the following donations to the Hospital have been received :—

- From MRS. FREDERICK O. PRINCE, a quantity of Japanese trays, pictures, vases, and doilies.
- From THE SUFFOLK CLUB, by DR. HALL CURTIS, London Graphic and London Times for 1880.
- From MRS. QUINCY A. SHAW, weekly, a box of choice cut flowers from greenhouse.
- From DR. MARION, a set of Dickens' novels, and other books.
- From MRS. LUCE, packages of old linen several times.
- From C. P. GRIMMER & Co., florists, boxes of cut flowers several times.
- From MRS. NUTE, packages of charpie and old linen several times.
- From MRS. MINNES, packages of old linen several times.
- From MISS ALICE B. MERRIAM, books for children's ward.
- From MRS. A. T. MAYNARD, books and magazines.
- From ALDERMAN WHITTEN, boxes of choice flowers several times.
- From THE YOUNG LADIES OF WELLESLEY COLLEGE, a fine steel engraving of Correggio's "Holy Night," finely framed, for the children's ward.
- From MASTER ERNEST MCKIM, a package of illustrated magazines, for children's ward.
- From MISS A. C. HALL, flowers.
- From MISS KENDALL, flowers.
- From MRS. G. SCULL, German books and magazines.
- From MISS DANIELS, books.
- From MISS S. L. CLARK, children's sacques and garments.
- From MRS. DAVENPORT, London Graphic and Illustrated Times.
- From AN ANONYMOUS FRIEND, 1 box lemons, 1 barrel watermelons.
- From MRS. SEARS, Beverly, fruit, vegetables, and flowers.
- From SHAWMUT SPIRITUAL FLOWERS, flowers.
- From FIRST CHURCH, BERKELEY ST., Easter flower pieces.
- From AN UNKNOWN FRIEND, Easter flower pieces.
- From R. G. PARKER & Co., florists, large box rose-buds.
- From MRS. S. S. WARD, Brookline, flowers.
- From M. F. GAVIN, M.D., a large package of papers.
- From J. W. DENNY, M.D., a package of German papers.
- From MRS. CRAGIN, St. Nicholas magazines.
- From AN ANONYMOUS FRIEND, 100 illustrated magazines, and various reading-matter.
- From THE YOUNG MEN'S CHRISTIAN UNION, 60 tickets for rides for free convalescent patients.
- From MRS. CLARK, potted plants.
- From THE YOUNG LADIES AND GENTLEMEN OF BERKELEY STREET CHURCH, for quartette singing in the (wards) on Sunday afternoons.
- From MISS ALBA WALL AND TEN LADY FRIENDS, packages of toys, candy, wall texts, books and sundries, for children's ward on Christmas.
- From THE HOSPITAL NEWSPAPER SOCIETY, for more than 250 days in the year, a large bag of daily papers, magazines, and sundry reading-matter.
- From JAMAICA PLAIN EMPLOYMENT SOCIETY, for making 92 shirts, 61 chemises, 49 night-dresses, and sundry other articles.
- From VARIOUS UNKNOWN FRIENDS, at sundry times, fruit, reading-matter, and flowers.
- From MRS. L. H. PLIMPTON, package of linen.

EXTRAS. — In addition to the above, the following extras may be ordered by the Visiting Physicians and Surgeons: — Milk, Beef Tea, Chicken Broth, Mutton Broth, Gruel, Oatmeal Mush, Corn Starch, Boiled Rice, Eggs, Beef Steak, Mutton Chop and Chicken.

A small allowance of Milk and Beef Tea will be provided for each Ward daily. The House Physician or Surgeon may order these articles by a signed special order in each case when needed, for patients who enter in the intervals between the regular visits of the Visiting Physician or Surgeon to whom the case is assigned.

All Wines and Liquors, Ale, Beer, etc., will be ordered by the Visiting Physicians and Surgeons only, excepting in emergencies, when special orders for the same may be given by the House Physician or Surgeon, to be afterwards approved by the Visiting Physician or Surgeon, as the case may be.

By Order of the Board of Trustees.

JULY 2, 1878.

SHELF No.

[May, 1881, 20,000]

BOSTON PUBLIC LIBRARY.

One volume allowed at a time, and obtained only by card; to be kept 14 days (or seven days in the case of fiction and juvenile books, published within one year,) without fine; not to be renewed; to be reclaimed by messenger after 21 days, who will collect 20 cents, besides fine of 2 cents a day, including Sundays and holidays; not to be lent out of the borrower's household, and not to be transferred; to be returned at this Hall.

Borrowers finding this book mutilated or unwarrantably defaced, are expected to report it; and also any undue delay in the delivery of books.

\*\*\*No claim can be established because of the failure of any notice, to or from the Library, through the mail.

The record below must not be made or altered by borrower.
